i need my blow7 dude. Started out liking gme but then ran into bugs. I avoided that actions that caused the game to crash until I reached a point that I could go no further because it stopped working. Basically paid for an unplayable game.. best game, really

nice engine, killing bandits in a infinite loop is everything!!.. Started out liking gme but then ran into bugs. I avoided that actions that caused the game to crash until I reached a point that I could go no further because it stopped working. Basically paid for an unplayable game.. the game i thought would be good until it started first the game screen is to small second not in english third cant figure out how to play ugh. Bought the game, really tried to like it. But just too many people errors and no support.
