If your video is not up to par or your filters are not doing the trick, free video editing software can assist you with the process of editing videos without having to pay a penny. The free video editing software in question is iMovie and can be obtained through the App Store or Google Play. For iMovie, you can use your iDevices or set up a PC that you can connect to your TV and start editing your videos, all for free. So, in this post, we are going to take a look at a few of the reasons why you should check out iMovie, in particular. 1. The app is incredibly simple to use. iMovie is one of the easiest free video editing software

---

apps to use, and it is also very user friendly. The editing interface is so easy to understand that even kids can figure it out quickly. iMovie is optimized for iPhones and iPads and for that reason, you can only record and edit your videos on these devices. However, if you do have a Mac or a PC, you can connect it to your TV through Apple TV or a USB or HDMI cable and start editing your videos from there. 2. It offers all the essential features. iMovie is not the only video editing app available in the App Store or on the Google Play, but it is also one of the simplest video editing apps. You can edit your video from start to finish using only the app, so if you need to add a title to your video, you can do that without having to switch to another app. You can choose from a number of different filters for your video to add a bit of extra flavor to your video. You can even add effects to your video like this one. You can even add music to your video and create the best possible movie for your social media account. So, if you want to show people that you know how to make a cool video, iMovie is the right free video editing software for you. You can easily use it to edit your videos, even for free. This iMovie App is very easy to use, simple to understand and it gives you all the options you need in your videos. 4. It is completely free. There are other free video editing apps in the App Store and the Google Play, but if you want a simple and easy-to-use app, you can't go wrong with iMovie. It is easy to use, has a good 82157476af
